

CARNIVAL MASK CRAFT

SUPPLIES:

Cardstock Paper
Construction Paper
Glitters
Sequins
Barbed Elastic Cord
Glue
Scissor

INSTRUCTIONS:

1. Trace the section covering the eyes on a pink cardstock paper. Mark the opening for the eyes and cut it out carefully. Measure and adjust the size and positioning of eyes based on your child's face.
2. Cut out five leaves from multi-color construction papers. We used orange, pink and green for our mask. Here is an approx measurement of leaves we used: height 7.5" and width 4.5".
3. Make small slits on the leaves as shown in the picture.
4. Glue the leaves on the pink cardstock paper eye mask.
5. Decorate your mask with glitter and sequins.
6. Glue multi-color feathers at the centre.
7. Poke two small holes on the side of the mask using a skewer or any sharp object. Insert a barbed elastic cord and the mask is all set.
